High-Performance Granular Organic Fertilizer
for Strong Crop Growth and Soil Vitality in Organic Systems

SIFORGA® Grow is formulated to provide crops with a strong nutritional foundation during the early growth phase. Its high organic-nitrogen content delivers rapid yet steady nutrient availability, while its rich organic matter improves soil structure and moisture balance, supporting healthy establishment and resilient plant development.

Product Description

- Enriched organic fertilizer;
NPK 10-1-3 + 0.5MgO + 2CaO
- Contains around 80% organic matter from animal and vegetal sources
- 100% natural, no chemical or other additives
- High percentage of stable organic matter
- Free from pathogens and weed seeds
- Low in chlorine
- Produced in compliance with EU Regulation 1069/2009/EEC
- Certified for use in organic farming (EU 2021/1165 and EU 2018/848)

Key Benefits

- Enriched with organically sourced nutrients to support active vegetative growth stages
- High organic nitrogen content supports vigorous early growth and uniform plant establishment
- Gradual nutrient release enhances nutrient availability in line with crop demand
- Improves soil fertility by enhancing structure, aeration, and water-holding capacity
- Granular form ensures precise, uniform application, compatible with spreaders and in-row fertilization

Product Characteristics

	% on total product
Dry matter	90
Organic matter (loss on ignition at 550°C)	80
C/N ratio	4
Nitrogen (N) total	10
Nitrogen (N) organic	9.5
Phosphate (P ₂ O ₅) total	1
Potassium (K ₂ O) total	3
Magnesium (MgO) total	0.5
Calcium (CaO) total	2
Bulk density	700-800 kg/m ³
Product appearance	Granulate (1-3 mm)

Dosage Recommendations

Crop	kg/ha
Open field vegetables	500 - 1.500
Greenhouse vegetables	1.000 - 1.500
Broadacre crops	1.000 - 1.500
Grains and rice	600 - 1.700
Fruit trees & orchards	750 - 1.500
Vineyards	500 - 1.000
Ornamentals & floriculture	750 - 1.500
Tree nurseries & perennials	500 - 1.000
Lawn and sports turf	500 - 1.000

Dosage recommendations are based on average crop requirements. The exact rate depends on crop type, climate, and soil conditions. For tailored guidance, please contact MeMon or your local consultant

General Application Advice

- Apply during early to mid-vegetative growth stages and incorporate into the topsoil
- In planted areas, apply as a top or row fertilization at 15-20 cm from the roots
- Apply before rain or use irrigation after application
- Split applications if necessary. This depends on the type of crop and the amount of fertilizer needed.

Storage Conditions

- Store in a dark, cool but frost-free and dry place
- Keep away from water and moisture
- Do not store together with food products
- Minimum shelf life of three years after production; longer if stored correctly

Safety & Environmental Information

- Not intended for ingestion. Wash hands after use. Don't breath in dust
- In case of an accident or if you feel unwell, seek medical advice
- Keep away from children and pets
