ORGEVIT® BioBoost

High Performance Organic Fertilizer
for Soil Health, Fertility, and Enhanced Soil Biology

Conventional
Growing

ORGEVIT® BioBoost is an enhanced organic fertilizer developed on the proven performance of ORGEVIT. While retaining all the benefits of the straight product, it is enriched with a natural biological component that activates soil life. It stimulates the transformation of organic matter, improves nutrient cycling, and strengthens soil vitality.

Product Description

- Enhanced organic fertilizer; NPK 4-3-2.5
- Made from high-quality chicken manure
- Enriched with a natural component that supports active soil biology
- High content of stable organic matter
- Free from pathogens and weed seeds
- Low in chlorine
- Produced in compliance with EU Regulation (EC) No 1069/2009

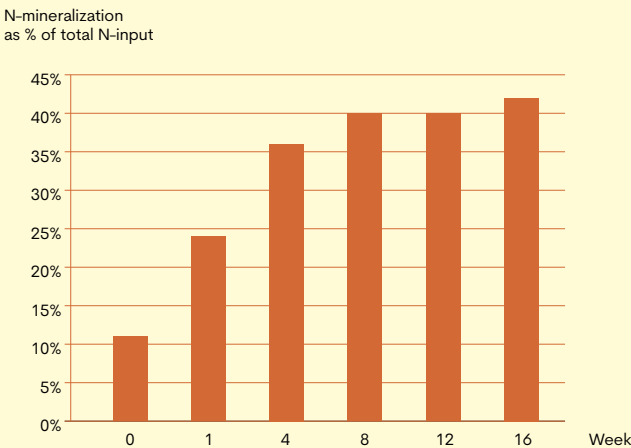

Key Benefits

- Improves soil texture and builds long-term soil fertility
- Enhances nutrient and water retention for more resilient soils
- Encourages natural humus formation and supports active soil biology
- Contains humic and fulvic acids that increase nutrient availability and soil regeneration
- Activates soil biological processes and promotes the transformation of organic matter
- Enhances nutrient cycling and increases nutrient release from soil and organic matter
- Improves overall soil vitality and biological activity
- Supports sustainable soil productivity across multiple growing seasons

Product Characteristics

	% on total product
Dry matter	90
Organic matter (loss on ignition at 550°C)	65
C/N ratio	9
Nitrogen (N) total	4
<i>Nitrogen (N) organic</i>	3.6
Phosphate (P ₂ O ₅) total	3
Potassium (K ₂ O) total	2.5
Magnesium (MgO) total	1
Calcium (CaO) total	9
Bulk density	650-750 kg/m ³
Product appearance	Pellets (4-5mm)

Net N mineralization

Dosage Recommendations

Crop	kg/ha
Open field vegetables	1.000 - 3.000
Greenhouse vegetables	2.000 - 3.000
Broadacre crops	2.000 - 3.000
Grains and rice	900 - 2.600
Fruit trees & orchards	1.500 - 3.000
Vineyard	1.000 - 2.000
Ornamentals & floriculture	1.500 - 2.500
Tree nurseries & perennials	1.000 - 2.000
Lawn and sports turf	1.000 - 1.500

Dosage recommendations follow the same principles as the straight product and are based on average crop needs. The exact amount depends on the crop, climate, and soil conditions. ORGEVIT® BioBoost stimulates soil biology and organic matter transformation at standard application rates. For tailor-made advice, please contact MeMon or your local consultant.

General Application Advice

- Apply 7-10 days prior to sowing or planting and mix gently into the topsoil
- In planted areas, apply as a top or row fertilization at 15-20 cm from the roots
- Apply before rain or irrigate shortly after application to support activation in soil
- Split applications if needed, depending on crop type and soil condition
- Avoid deep placement to maintain biological effectiveness

Storage Conditions

- Store in a dark, cool but frost-free and dry place
- Keep away from water and moisture
- Do not leave the bag open after use; always reseal the packaging tightly
- Do not store together with food products
- Minimum shelf life of three years after production; longer if stored correctly

Safety & Environmental Information

- Not intended for ingestion. Wash hands after use. Don't breath in dust
- In case of an accident or if you feel unwell, seek medical advice
- Keep away from children and pets

MeMon B.V.
