SIFORGA® Start

High-Performance Granular Organic Fertilizer
for Early Growth and Soil Vitality

Conventional
Growing

SIFORGA® Start is an enriched organic fertilizer designed to strengthen early crop development. It improves soil structure, aeration, and nutrient availability while providing fast-acting organic nitrogen for uniform emergence.

Product Description

- Enriched organic fertilizer; NPK 8-5-3 + 8 CaO
- Contains 65% stable organic matter from animal and vegetable sources
- 100% natural, no chemical or other additives
- Free from pathogens and weed seeds
- Low in chlorine
- Produced in compliance with EU Regulation 1069/2009/EEC

Key Benefits

- Enriched with organically sourced nutrients to support strong early crop development
- Provides quick-release organic nitrogen for uniform emergence and vigorous canopy formation
- Improves soil fertility by enhancing soil structure, aeration, and water retention
- Granular form enables precise, uniform application and is compatible with spreaders and in-row fertilization
- Suitable for use alone or as part of organo-mineral blends targeting early growth and establishment phases

Product Characteristics

	% on total product
Dry matter	90
Organic matter (loss on ignition at 550°C)	65
C/N ratio	4.5
Nitrogen (N) total	8
<i>Nitrogen (N) organic</i>	7.8
Phosphate (P ₂ O ₅) total	5
Potassium (K ₂ O) total	3
Magnesium (MgO) total	0.5
Calcium (CaO) total	8
Bulk density	700-850 kg/m ³
Product appearance	Granulate (1-5mm)

Dosage Recommendations

Crop	kg/ha
Open field vegetables	1.000 - 2.500
Greenhouse vegetables	1.700 - 2.500
Broadacre crops	1.700 - 2.500
Grains and rice	600 - 1.800
Fruit trees & orchards	1.200 - 2.500
Vineyard	750 - 1.500
Ornamentals & floriculture	1.200 - 2.000
Tree nurseries & perennials	750 - 1.200
Lawn and sports turf	750 - 1.200

Dosage recommendations are based on average crop requirements. The exact rate depends on crop type, climate, and soil conditions. For tailored guidance, please contact MeMon or your local consultant

General Application Advice

- Apply 7-10 days prior to sowing or planting and mix with the top layer of the soil
- In planted areas, apply as a top or row fertilization at 15-20 cm from the roots
- Apply before rain or use irrigation after application
- Split applications if necessary. This depends on the type of crop and the amount of fertilizer needed.

Storage Conditions

- Store in a dark, cool but frost-free and dry place
- Keep away from water and moisture
- Do not store together with food products
- Shelf life is minimal three years after the production date and can be longer when stored correctly
- Minimum shelf life of three years after production; longer if stored correctly

Safety & Environmental Information

- Not intended for ingestion. Wash hands after use. Don't breath in dust
- In case of an accident or if you feel unwell, seek medical advice
- Keep away from children and pets
